

# Design Trends

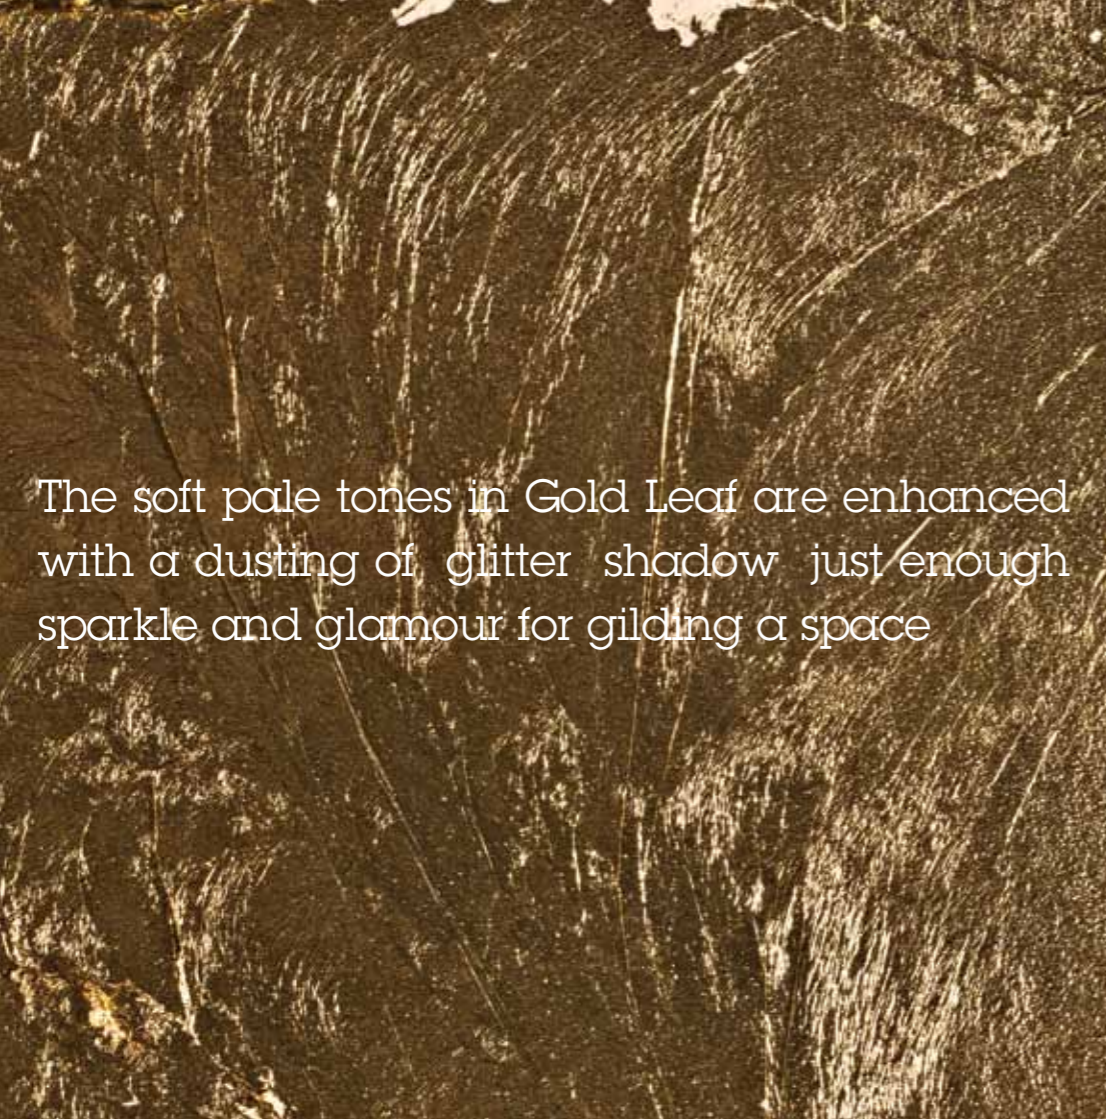

*Antico*  
            
®

Creativity doesn't grind to a halt just because economic times have changed, a fact proven by the three exciting new collections which have sprung forth from the Amtico Design Team this season. Both responding to and anticipating trends, we offer Metal, Mica Mix and Travertine to inspire your own creativity this year.

# Metal

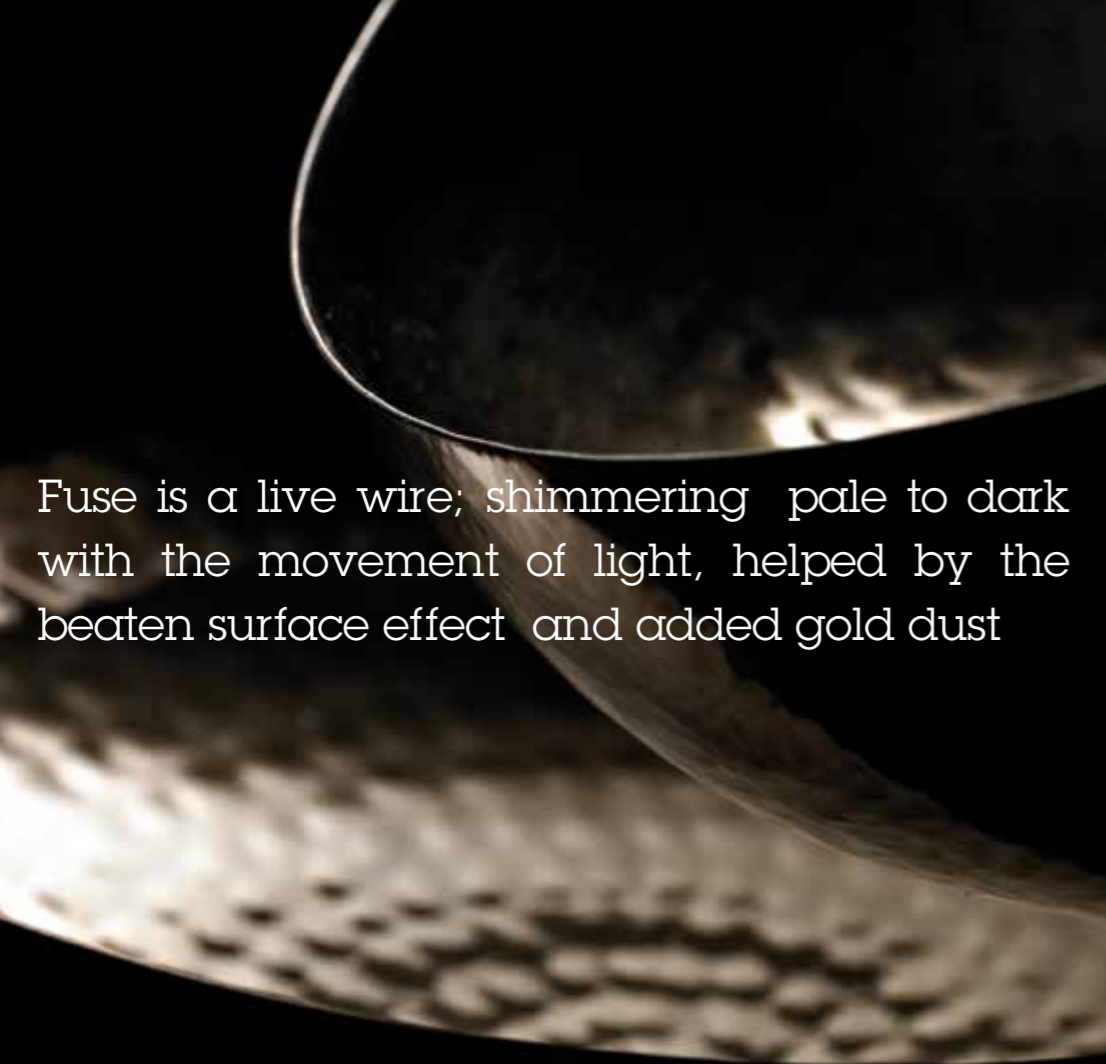

Understated opulence

The soft pale tones in Gold Leaf are enhanced with a dusting of glitter shadow just enough sparkle and glamour for gilding a space

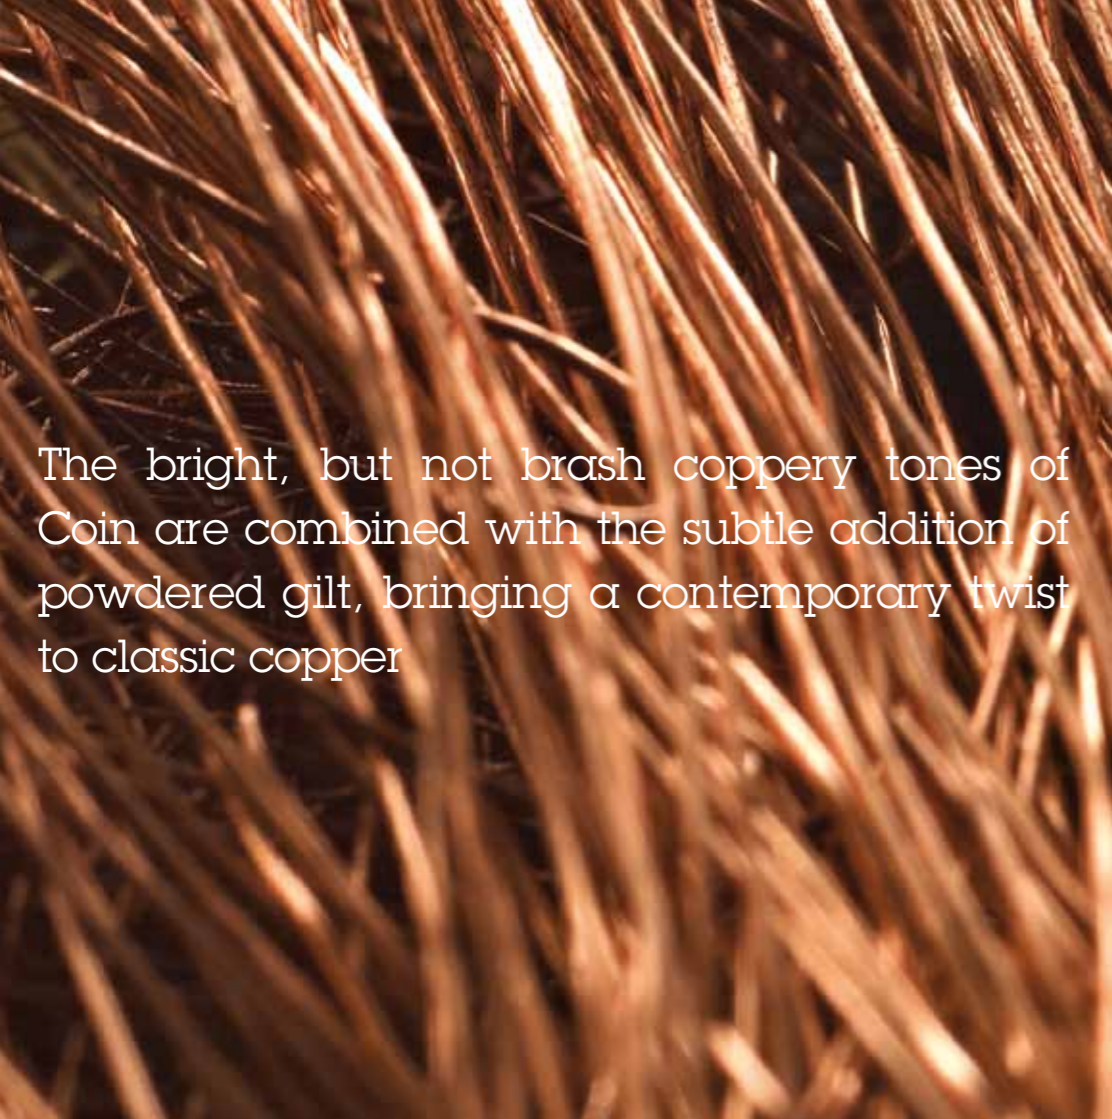

Metal Gold Leaf

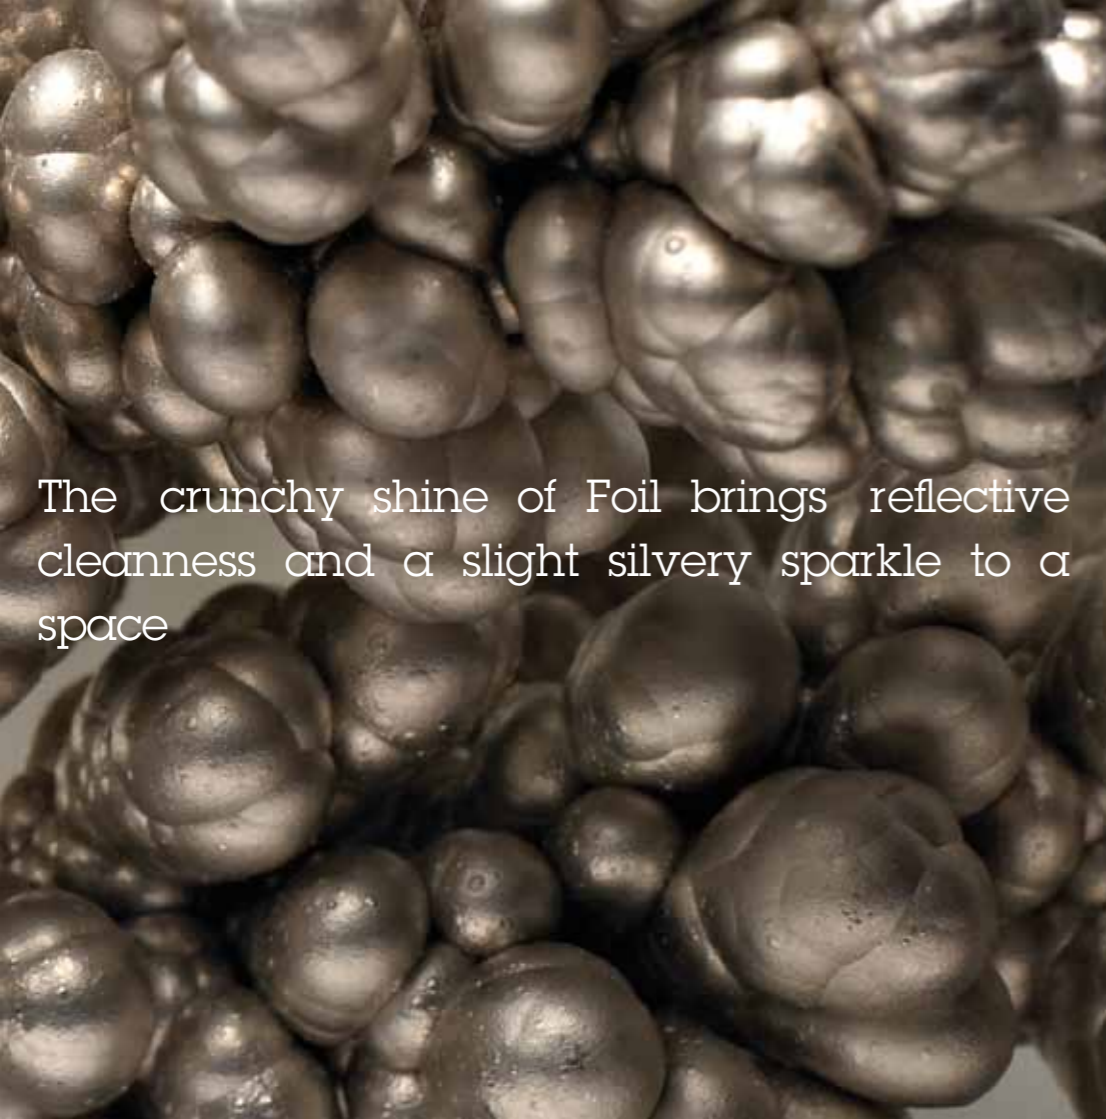

Fuse is a live wire; shimmering pale to dark with the movement of light, helped by the beaten surface effect and added gold dust

Metal Fuse

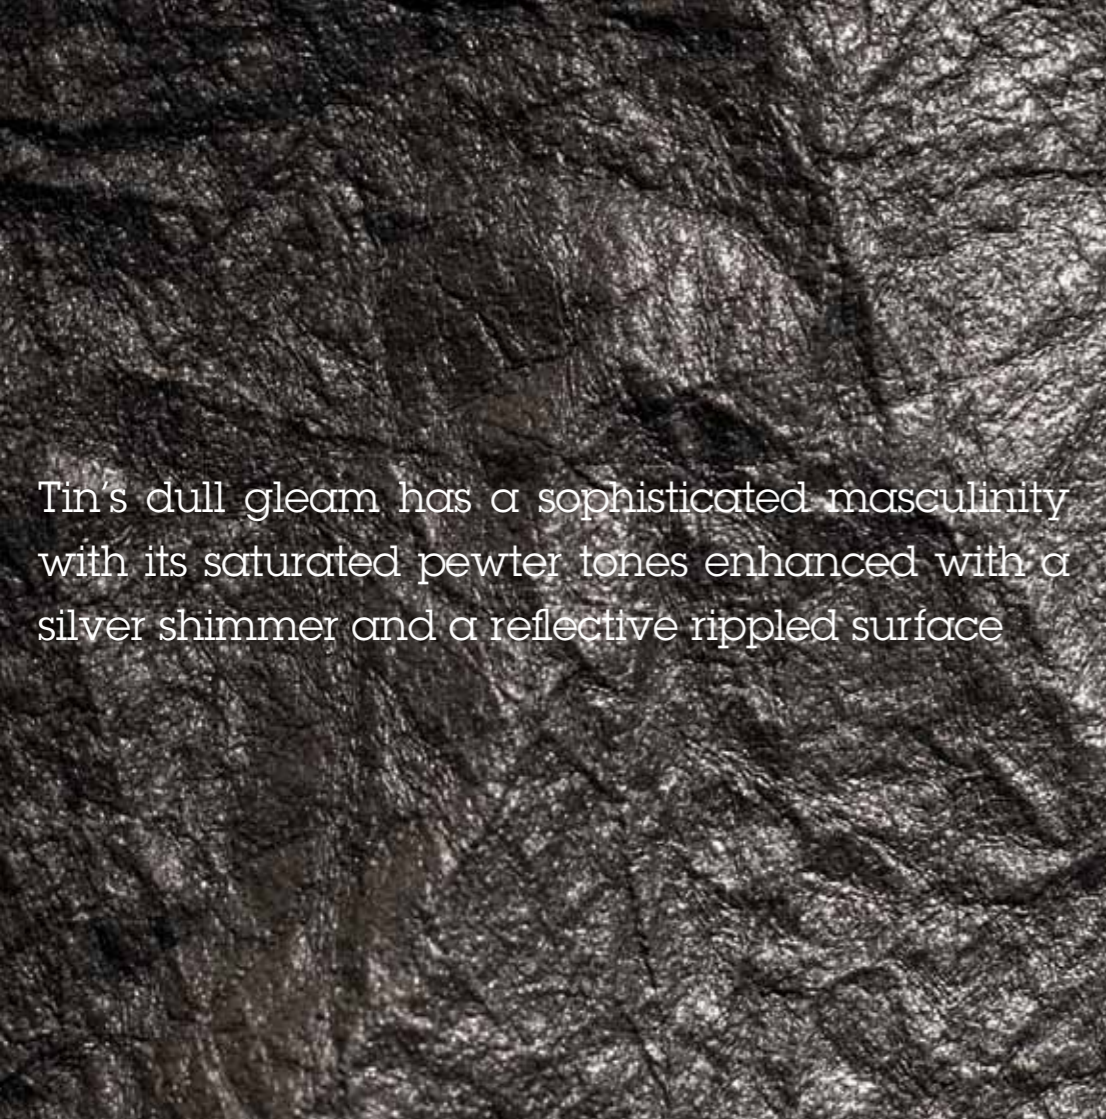

The bright, but not brash coppery tones of Coin are combined with the subtle addition of powdered gilt, bringing a contemporary twist to classic copper

Metal Foil

The crunchy shine of Foil brings reflective cleanness and a slight silvery sparkle to a space

Tin's dull gleam has a sophisticated masculinity with its saturated pewter tones enhanced with a silver shimmer and a reflective rippled surface

Metal Tin

Shot brings sparkle and wit to darkness with its beaten effect and smattering of silver powder

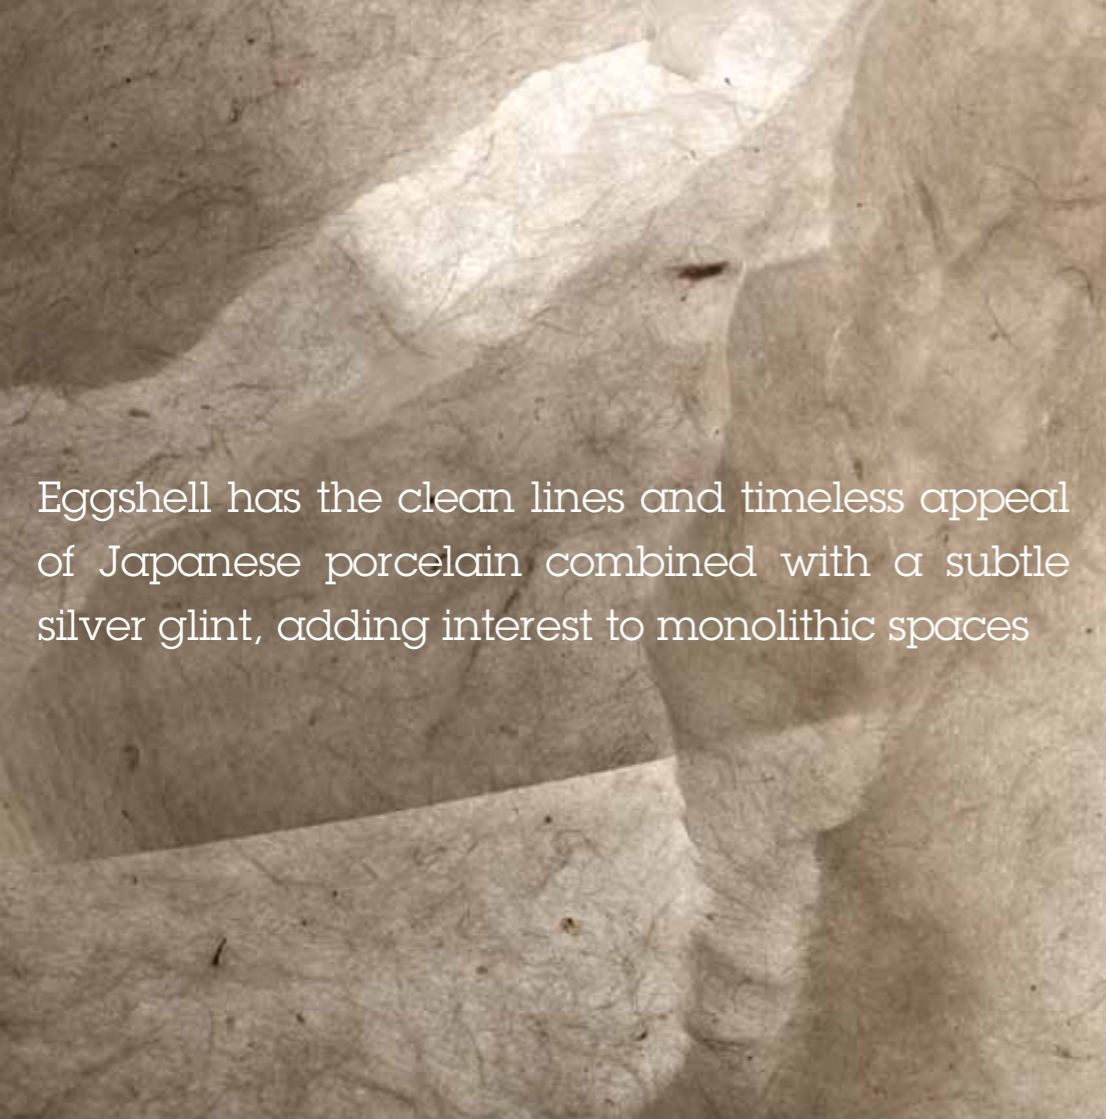

Metal Shot

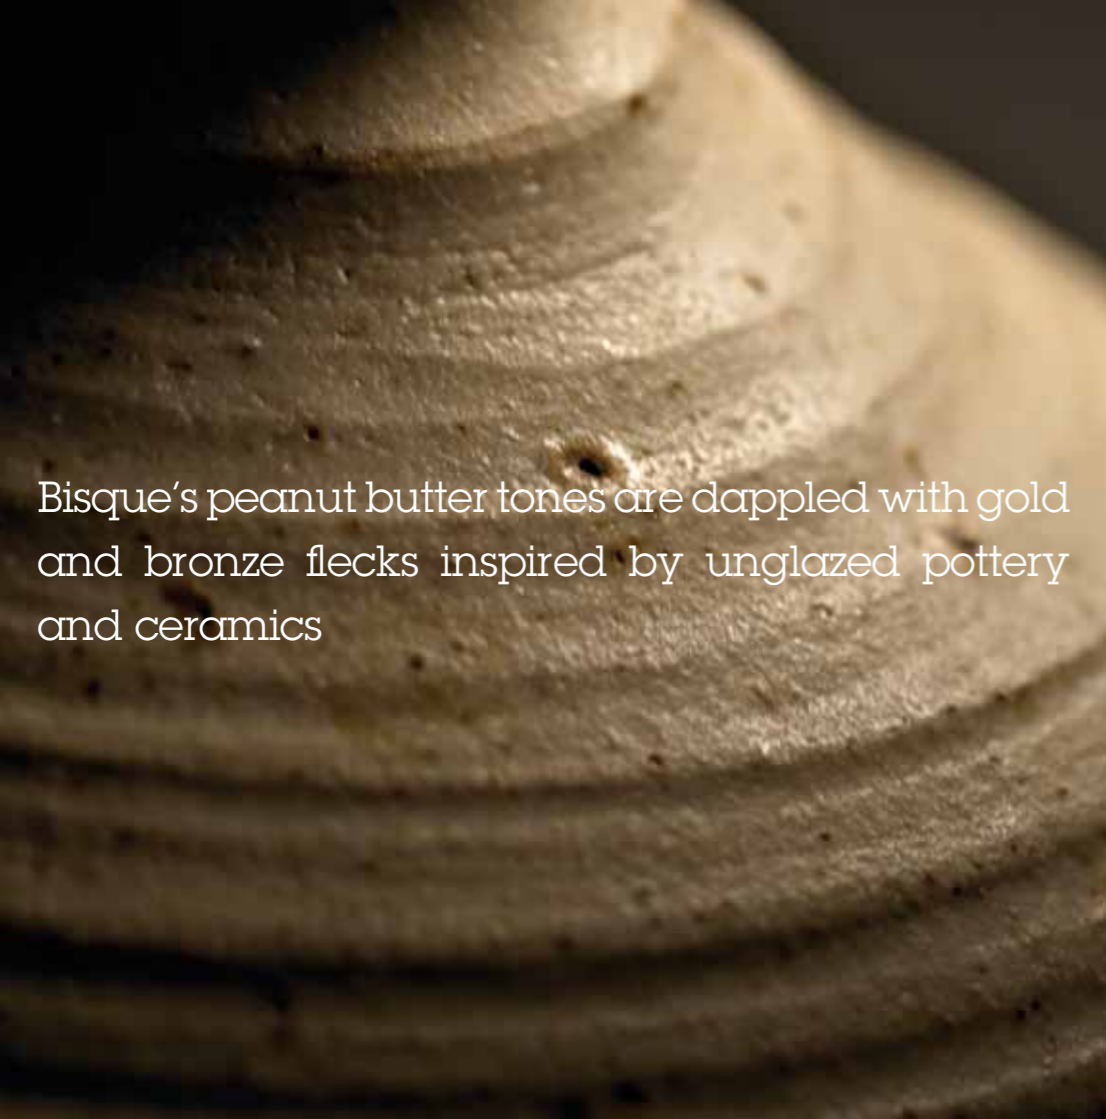

# Mica Mix

Earth tones collide with a scattering of sparkle

Eggshell has the clean lines and timeless appeal of Japanese porcelain combined with a subtle silver glint, adding interest to monolithic spaces

Bisque's peanut butter tones are dappled with gold and bronze flecks inspired by unglazed pottery and ceramics

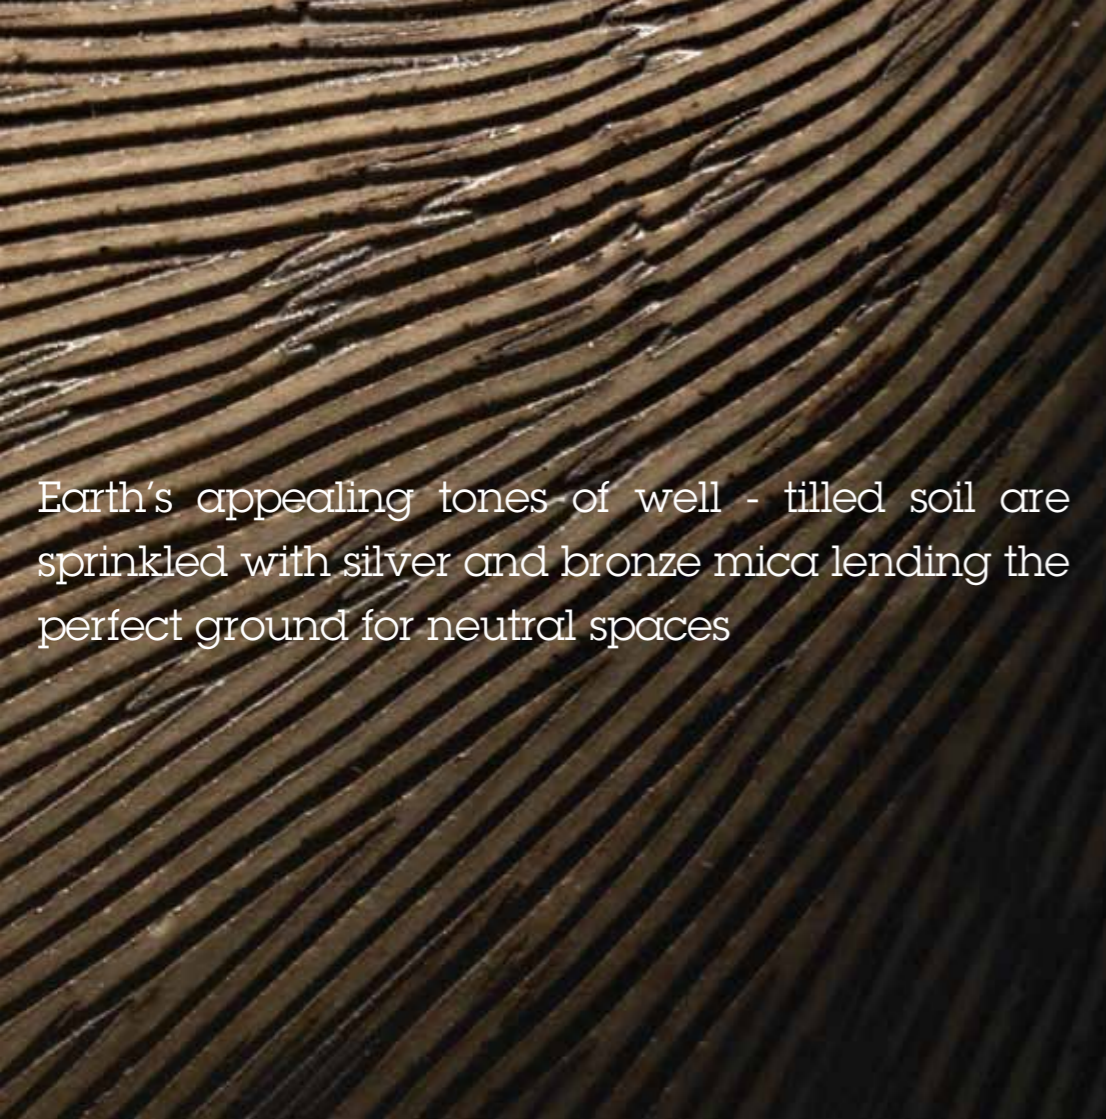

Mica Mix Bisque

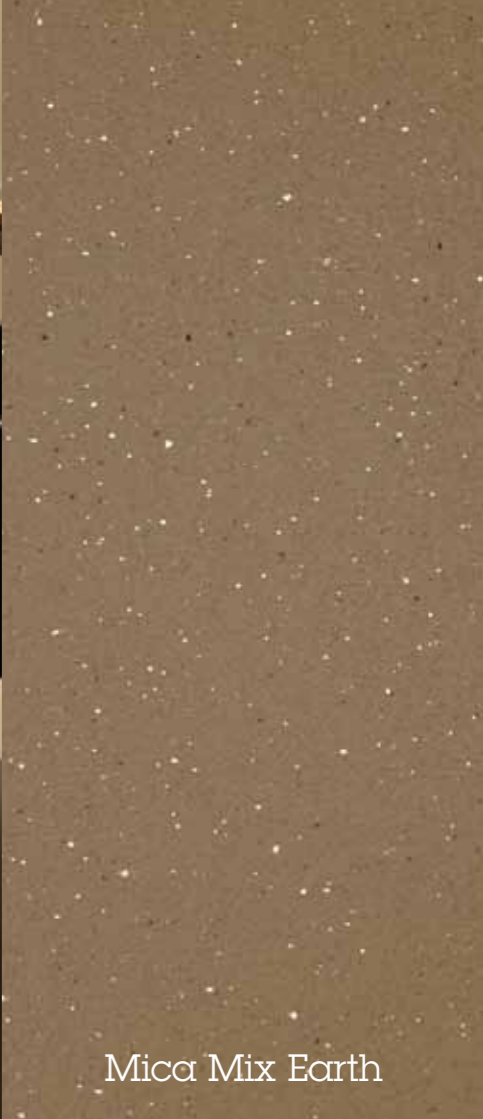

Clay's warm taupe shades combine with a scattering of bronze and silver particles, evoking the image of fresh clay and slip at a potter's wheel

Mica Mix Clay

Earth's appealing tones of well - tilled soil are sprinkled with silver and bronze mica lending the perfect ground for neutral spaces

# Travertine

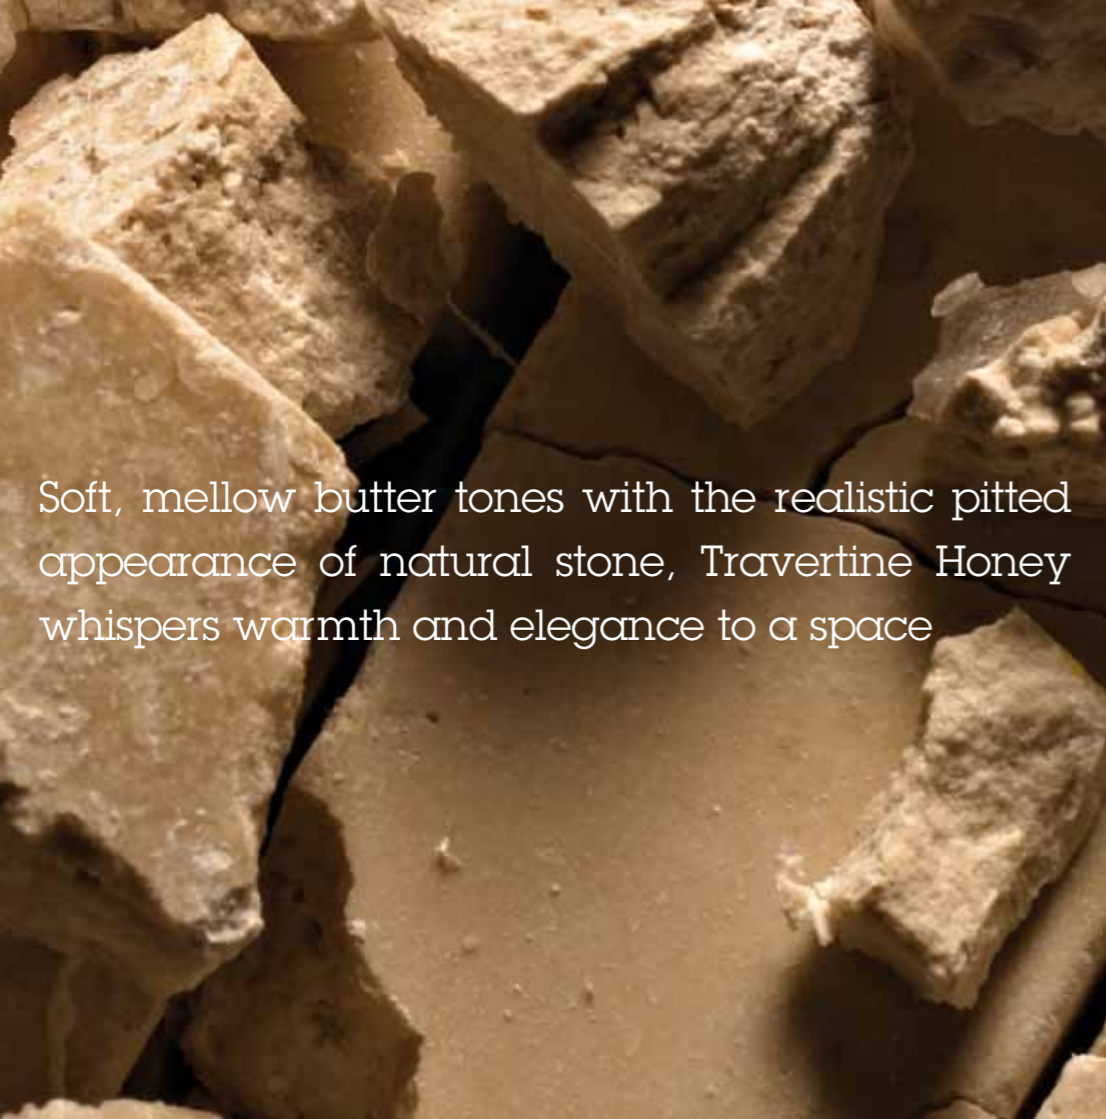

Geology meets architecture

Travertine Ivory

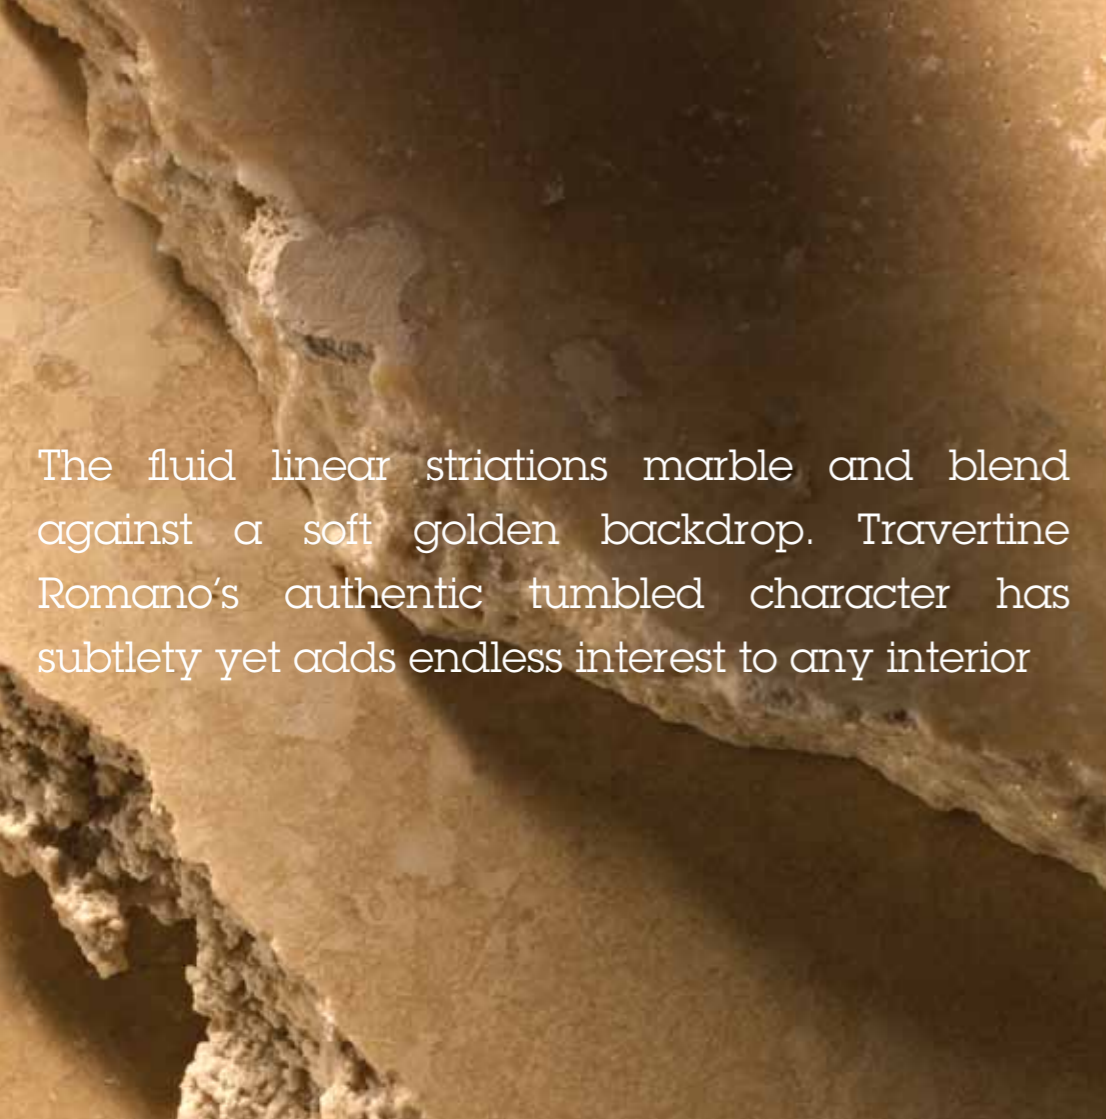

The cloudy, chalky appearance found in Travertine Ivory is enhanced with an aged and tumbled look, perfectly capturing the essence of the natural material

Soft, mellow butter tones with the realistic pitted appearance of natural stone, Travertine Honey whispers warmth and elegance to a space

Travertine Honey

The fluid linear striations marble and blend against a soft golden backdrop. Travertine Romano's authentic tumbled character has subtlety yet adds endless interest to any interior

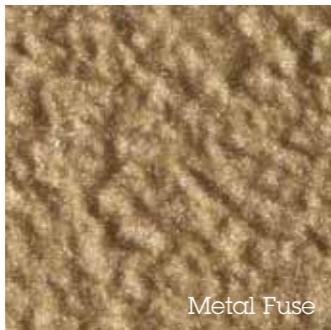

Travertine Romano

# Metal

Understated Opulence

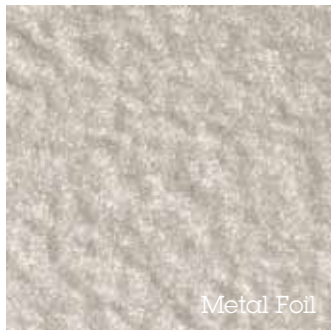

Metal Gold Leaf

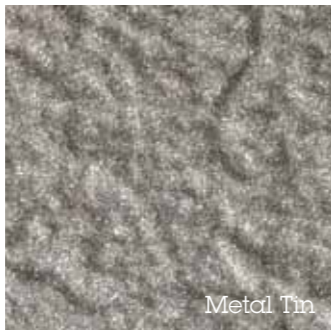

Metal Fuse

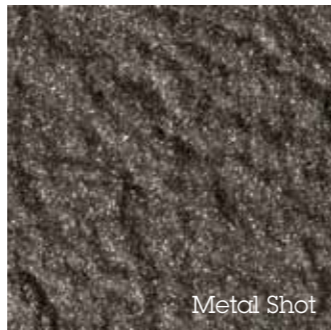

Metal Coin

Metal Foil

Metal Tin

Metal Shot

Product: ME71 Metal Gold Leaf ME72 Metal Fuse ME73 Metal Coin  
ME31 Metal Foil ME32 Metal Tin ME33 Metal Shot

Size availability: 12" x 12" (305mm x 305mm), 12" x 18" (305mm x 457mm), 18" x 18" (457mm x 457mm),  
12" x 24" (305mm x 610mm)

Finish: Dimple with urethane coating and bevelled as standard

Price guide: Advanced

Every effort is made to achieve accurate reproduction of products in this brochure, however printing limitations can be misleading. Selection of products should be made from actual samples. Samples are small pieces cut from standard tiles. They give only a general indication of the design. Tone and shading can vary slightly from batch to batch, and it is not possible to guarantee that the sample will exactly match the material supplied. The policy of the Company is one of continuous development and improvement and the right is reserved to add or delete from the range or change patterns without prior notification.
